

back to work safely

health and safety solutions for your workplace

smart working strategy

modular and customized solutions for your mobility and business continuity

Following the COVID19 outbreak, a return to work is now on the cards. However, employers may face a logistical nightmare as staff go back to the office. Econocom facilitates the implementation of thermal tech, sanitisation solutions and protective equipment to ensure that everyone can get back to work safely. For those who can't, Econocom can also deploy remote tech in no time to help staff continue working from home in the best conditions.

Thermal scanners & cameras etc.

Air & surface sanitisation, air purification etc.

Contactless vending machines, masks, hand sanitisers etc.

Safety IoT platform, tracking apps etc.

End-to-end packages (IT, logistics, support desk, apps etc.)

AS-A-SERVICE

Spread payments over time, preserve cash reserves and align costs with business use.
